Subject Carlyle buyout of Verizon Hawaii

Dear Sirs,

I strongly oppose the buyout of Verizon Hawaii by the Carlyle Group

There is no place in Hawaii's business for the Carlyle Group. Wherever they go, death, war and destruction are sure to follow. They are profiteers of genocide finance and merchants of death.. There sole purpose is to increase shareholder capital at the cost of peace and prosperity for everyone else. Their corporate structure assures that they will never withhold actions and strategies causing, abetting, aiding, ratifying, and sponsoring strife, warfare, weapons production, and fascism.. Hawaii is not the place for these people to play. We are a land governed by aloha not fascism and war industry. We have far too much military involvement and pollution and destruction on our aina already. The Stryker brigade is anti democratic because no majority here asked for or voted for it. The Carlyle Group benefited in a very unusual way from 9/11. Ask yourself and ask them about their meetings on 9/11 and how George Bush Sr. and the Bin Ladens could have been meeting then. Remember Chris Snyder, a tree planter from Honolulu, who died in that attack, and look at who benefitted outrageously. Are these the kind of people you want installed in our islands? Do they deserve anyplace on earth?

Aloha,

Douglas H. Fox
